WORK EXPERIENCE

Software Engineering Intern, Social Finance (SoFi)   Summer 2022
   Invest Team (Brokerage Experience)

- Improved the scheduled purchase experience using JavaScript, SQL, and Java
- Added metrics to reduce purchase failures
- Implemented unit tests with JUnit and Mockito

PROJECTS

Weather APIs   Fall 2022

- Utilized GeoDB Cities and OpenWeather APIs to let users search for cities and display weather details for the cities they selected.

Note App   Spring 2022

- Co-created React app which permits authenticated users to create, store, and share notes using Firestore for cloud storage.
- Incorporated accessible design allowing for keyboard and/or screen reader navigation.

Portfolio Website (www.christianvaldovinos.com)   Fall 2021

- Built a React webpage to host my projects and live resume updates.
